SENATE BILL

No. 564

Introduced by Senator Cannella

February 26, 2015

An act to amend Section 10723 of the Water Code, and to create the North Fork Kings Groundwater Sustainability Agency, and prescribing its boundaries, organization, operation, management, financing, and other powers and duties, relating to water districts.

LEGISLATIVE COUNSEL'S DIGEST

SB 564, as amended, Cannella. North Fork Kings Groundwater Sustainability Agency Act.

Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources that are designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2022, except as specified. The act authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin. The act deems certain agencies created by statute to manage groundwater the exclusive local

agencies within their respective statutory boundaries with powers to comply with the act and authorizes these agencies to opt out of being the exclusive groundwater management agency.

This bill would create the North Fork Kings Groundwater Sustainability Agency, would establish the initial boundaries of the agency, and would authorize the agency's boundaries to be changed by the boards of supervisors of the Counties of Fresno and Kings after a noticed public hearing, as specified. The bill would require the agency to be a groundwater sustainability agency under the Sustainable Groundwater Management Act for that portion of the Kings Subbasin that lies within the boundaries of the agency and would require the agency to develop and implement a groundwater sustainability plan to achieve sustainable groundwater management within the territory of the agency. The bill would generally specify the powers and purposes of the agency. The bill would prescribe the composition of the 7-member board of directors of the agency and would require members and alternates to be chosen by certain member agencies, as specified. By imposing duties on the agency and the member agencies, the bill would impose a state-mandated local program. The bill *require the agency to establish a rural community advisory committee to assist the board of directors in considering the interests of all beneficial uses and users of groundwater and* would deem the ~~North Fork Kings Groundwater Sustainability Agency~~ agency the exclusive local agency with powers to comply with the Sustainable Groundwater Management Act.

This bill would incorporate additional changes to Section 10723 of the Water Code proposed by both this bill and SB 37 to become operative only if both bills are enacted and become effective before January 1, 2017, and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

- 1 SECTION 1. This act shall be known and may be cited as the
- 2 North Fork Kings Groundwater Sustainability Agency.

1 North Fork Kings Groundwater Sustainability Agency

2
3 Article 1. Findings and Declarations
4

5 101. The Legislature hereby finds and declares that the
6 preservation of the groundwater resources within the territory of
7 the agency is in the public interest and that the creation of the
8 agency pursuant to this act is for the common benefit.

9 102. The Legislature further finds and declares that the
10 groundwater management activities of the agency benefit all
11 operators of groundwater extraction facilities within the territory
12 of the agency.

13 103. The Legislature further finds and declares that
14 circumstances in the territory of the agency to be formed hereby,
15 which may not exist in other locations, justify the formation of the
16 agency and the grant of powers contained in this act. The territory
17 of the agency to be formed hereby includes vast areas of the
18 nation's top farm producing lands and places that have been
19 designated by the State of California as disadvantaged communities
20 disproportionately impacted by air quality and socioeconomic
21 burdens. There are a number of scattered small public and private
22 water entities in the territory of the agency that do not have the
23 staff or resources to otherwise form a groundwater sustainability
24 agency. These entities agree the territory is best served by a single
25 dedicated agency to manage the groundwater resources.

26
27 Article 2. Creation and Purposes
28

29 201. (a) A groundwater management agency is hereby created
30 in the Counties of Fresno and Kings to be known as the North Fork
31 Kings Groundwater Sustainability Agency.

32 (b) The agency shall be governed by a board as specified in
33 Section 501 and shall have the boundaries specified in Section
34 301. The agency shall only exercise the powers granted by this act
35 and the Sustainable Groundwater Management Act (Part 2.74
36 (commencing with Section 10720) of Division 6 of the Water
37 Code) for purposes of groundwater management within the
38 boundaries of the agency, together with any other powers as are
39 reasonably implied, necessary, and proper to carry out the
40 objectives and purposes of the agency to implement the Sustainable

1 Groundwater Management Act. The agency shall abide by the
2 rules and regulations promulgated by the Department of Water
3 Resources and the State Water Resources Control Board to
4 implement the Sustainable Groundwater Management Act.

5
6 Article 3. Boundaries
7

8 301. For purposes of this act, the initial boundaries of the
9 agency shall be as follows:

10 Beginning at the intersection of the southwestern boundary of
11 Raisin City Water District (Raisin City WD) and Highway 145,
12 the North Fork Kings Groundwater Sustainability Agency
13 Boundary (Boundary) follows Highway 145 southwest to the
14 southern boundary of Reclamation District 1606 (RD 1606). It
15 then follows the southern boundaries of RD 1606 and James
16 Irrigation District (James ID) to the intersection of the James ID
17 boundary with the Kings Subbasin boundary. Then, it follows said
18 subbasin boundary south and east to its intersection with the
19 southwestern boundary of Consolidated Irrigation District
20 (Consolidated ID). The Boundary then continues north and west
21 following the southern Consolidated ID boundary and the southern
22 and western Raisin City WD boundaries to the point of beginning.

23 302. (a) The initial boundaries of the agency may be changed
24 upon a petition to the boards of supervisors of the Counties of
25 Fresno and Kings after a noticed public hearing-at *in* the county
26 in which the change is proposed. The boundaries shall be depicted
27 on a map that shall be maintained by the boards of supervisors of
28 those counties and thereafter recorded in the office of the county
29 recorder of each county.

30 (b) The boundaries of the agency shall not be adjusted to include
31 an area of the basin within the management area of another
32 groundwater sustainability agency unless the agency has entered
33 into a memorandum of agreement or other legal agreement with
34 that groundwater sustainability agency that permits the area to be
35 included.

36 (c) The boundaries of the agency shall *not* be adjusted to include
37 any part of a proposed management area, as defined in a notice of
38 intent submitted pursuant to Section 10723.8 of the Water Code,
39 unless the agency has entered into a memorandum of agreement

1 or other legal agreement with all agencies listed in the notice of
2 intent that permits the area to be included.
